## **Christie Administration Announces Emergent Repairs To Begin at 3 Camden Elementary Schools**

TRENTON – Furthering Governor Christie's commitment to ensuring that students attend safe and healthy schools, the New Jersey Schools Development Authority (SDA) has approved the start of construction of emergent repair projects at the Broadway, Washington and Fetters elementary schools in Camden.

A \$55,619 general construction contract was awarded to Wallace Bros., Inc. for structural repairs of exterior masonry at the Broadway Elementary School.

A \$48,750 general construction services contract was awarded to Catcord Construction Company, Inc. for structural repairs of exterior masonry at the Washington Elementary School.

A \$42,651 general construction services contract was awarded to Network Construction Company, Inc. for structural repairs of exterior masonry at the Fetters Elementary School.

Emergent projects are those deemed necessary in SDA Districts due to health and safety issues. The schools were inspected by the SDA and the Department of Education (DOE), which authorized the repairs.

The SDA designs, constructs and fully funds new and renovated schools in SDA Districts. Emergent repair projects are either managed by the SDA or delegated to SDA Districts. The SDA currently has seven SDA District schools in active construction and 133 emergent projects.

Since its inception, the school construction program has completed 623 projects in SDA Districts. In addition to 55 new schools, it has provided funding for 46 extensive additions, renovations and/or rehabilitations; six demonstration projects and more than 500 other projects. Also, it has completed 25 projects in Regular Operating Districts: seven new schools and 18 extensive additions, renovations and/or rehabilitations.
